MANEKEY

HELLO THERE, WE ARE DONKEY

a Hamburg-based design brand that develops and curates one-of-a-kind lifestyle and interior objects.

Since 2008, we have been driven by the love for creativity, storytelling and out-of-the-box thinking, all with one goal: to turn good ideas into unique objects that are refreshingly different and simply great.

This passion has put smiles on faces around the globe, and we're just getting started. As a natural evolution of our journey, we established the Donkey Creative Lab – a space where our team, alongside external designers, artists and innovative minds, can push the boundaries of design and bring even more creative ideas to life.

Donkey.
We create happiness.

EVERYTHING STAYS IN FLOW! At Donkey, we believe that a brand only stays alive if it keeps moving. 2025 was a year full of movement for us – full of new ideas, projects and interactions. Following our brand relaunch, we initiated many things that make Donkey even more visible, tangible and vibrant.

That's why we developed MYNEKO this year – a further development of our popular Lucky Cat collection. In addition to new colors and the world's smallest solar-powered waving cat, we have also completely redesigned our branding and packaging. You can find out more about this in this catalog.

Our Donkey Talks event series has quickly become an inspiring meeting place. In 2025 alone, around 400 guests from the worlds of creativity, design and business visited our campus to talk about new ideas, courage and the future.

But we don't wanted to talk on stages only. So we did it and started our first podcast »GOOD GOODS!« The idea is to give a platform to people who have turned extraordinary ideas into successful products, from Deichkind to Toniebox to Kangaroos.

And with Donkey Cottage, we opened what is probably the tiniest motel in the world in Hamburg, furnished with Donkey products. It's a place where our design concept can be experienced.

All these projects have one thing in common: they are born out of curiosity, enthusiasm and the desire to constantly try new things. That's exactly what keeps Donkey fresh, and ensures that our products always stay ahead of the curve.

But why all this? Because standing still has never been our thing. We want to inspire, surprise and bring joy – to our partners, our customers and everyone who loves Donkey.

WE CREATE HAPPINESS.

ICONS OF SPORT

Sport captivates us. It makes us cheer, marvel, tremble - and sometimes even cry. It's not just the athletes who make history, but also the symbols that sweep us away: the basketball that hits the basket at the last second, the boxing glove that lands a decisive blow, or the bowling pins that all fall with a well-aimed throw.

With our Icons of Sport collection, we are celebrating precisely these icons. Not in the arena, but in your own home.

Whether you love the adrenaline rush of a thrilling final or simply have a heart for original design, this collection brings emotion, memories and sporting spirit straight into your home. Each object is a design statement that speaks for itself: independent, bold and full of energy.

Did you know that about 80% of human communication is through body language? The Arts of Parts collection is dedicated to the importance of our gestures to build connections.

The colourful vases and jewelry holders are complemented by the brain-shaped candle. In case you're wondering which body part the orange vase should be: The sulcus vase is exactly the brain cell responsible for good ideas. The foot and torso vases can also be used as bookends.

HUNGRY HIPPOS

Have you ever thought that your home is still missing a hippo? Haven't you? And that's exactly why our Hungry Hippos have arrived at just the right time. Enjoy the unexpected fitting into any interior style.

This purely ceramic collection brings a certain opulence back into our homes. Rendering the unusual to the ordinary life is both an inspiration and a challenge for us. The Hungry Hippos with the three vases, the bowl, the candle holders, the bottle sealer and the salt and pepper shakers take this alienation to the extreme.

One thing's for sure: every hippo in your home is a real statement and with such big mouths it's easy to smile broader.

Why bananas? Because the banana has always been more than just an ordinary fruit for us humans. Artists have always been interested in them – whether Andy Warhol for Velvet Underground or Maurizio Cattelan, who simply stuck the yellow fruit on the wall.

Designers sing the banana's praises, as it is simply perfect from both an artistic and practical perspective. No other fruit combines design with practical use so well. Packaging that everyone knows how to open, a colour that stands for itself and ingredients that are not only healthy, but have even been proven to make you happy.

THE ASTRONAUTS

Space - infinite, mysterious and fascinating. Even as children, we dreamed of becoming astronauts and conquering the stars. Though only a few are able to realize this dream, the fascination for space remains with us for a lifetime.

The Astronauts bring this dream to your home in style and let you feel the vastness of the universe right in your living room.

The helmet of each figurine is a small snow globe filled with water and glitter that gently trickles through the glass when shaken, bringing the idea of weightless space adventures to life. This playful yet elegant attention to detail makes the figurines a special highlight in any room.

A man and a woman are lying on their stomachs on a dark grey blanket. The woman, on the left, is wearing a light blue sweatshirt and has her eyes closed with a peaceful expression. The man, on the right, is wearing a dark grey sweatshirt and is looking up with a smile. The blanket features large, white, hand-painted letters that spell out 'DONKEY' in a graffiti style. The overall mood is relaxed and intimate.

JOHANNA SCHWARZER X DONKEY

Together with Frankfurt artist Johanna Schwarzer, the DONKEY Creative Lab makes the comfort zone what it should be for everyone: the place where you feel most comfortable - the place where you can recharge your batteries.

Because we feel for you when you're secretly happy that a date has been canceled or when you don't want to move from your couch from Friday to Sunday.

That's why we've developed some essentials that will make your time of relaxation something very special. Enjoy romantic evenings with our exclusive anti-scented candle. Cuddle up in your comfort zone in the truest sense of the word with our large 100% cotton blanket.

Legend has it that it was an old German tradition to hide an ornamental pickle on the christmas tree as one of the christmas decorations.

On christmas morning, the first child to find the pickle on the tree would get an extra christmas present from Santa and would be said to have a year of good fortune.

DESIGN BY DONKEY CREATIVE LAB.

The DONKEY Creative Lab is the heart and brain of DONKEY and gives us as a brand the opportunity to be more than just a retail company. In the Creative Lab, great ideas are turned into great companies, workshops, collaborations and, of course, products, collections and events.

It is the basis of everything we do at DONKEY and allows us to think outside the box time and time again. In the DONKEY Creative Lab, we regularly collaborate with external artists, designers and innovative minds - such as SMILEY, KITCHCAN-MAKEYOURICH and MISS POMPADOUR.

The collaborations are important to regularly expand our own horizons and to never stand still. Every product from DONKEY Products is being handled by the Creative Lab to ensure that it is a genuine DONKEY product. But because it is open to all, we have the chance to constantly reinvent ourselves and redefine what a DONKEY product is or can be.

↗ CREATIVE LAB

MISS POMPADOUR

As a company that sells colour, but above all emotion and empowerment online, we at DONKEY immediately saw parallels with Miss Pompadour. We launched our first joint Lucky Cat in Miss Pompadour's trend colour back in 2025. And because it's such a good match, we will be launching another joint Lucky Cat in 2026, which will be very special this time. In an unprecedented shiny shimmer tone that perfectly embodies the 2026 trend colour »blue with soap bubbles«. Miss Pompadour and DONKEY—it just works because we make people happy and empower them.

JOHANNA SCHWARZER

Johanna Schwarzer is an illustrator and artist from Frankfurt. She is known for her unique typeface and lines. Together with her, we have developed a collection that is made for cold days. With the large mug, an anti-scent candle, the glass spray bottle and the cozy woolen blanket, the cold, grey days become relaxed Cozy Home Days. All products feature a statement in the typical Johanna Schwarzer font.

The woolen blanket thus becomes the »Comfort Zone« and the candle bears the inscription »smells like nothing«. The »Big Hug Mug« is so big that you can »hug« it with two hands and with the »Karma Spray« you are doing something good for your plants and ultimately also for yourself.

DONKEY X JOHANNA SCHWARZER

↗ COLLABORATIONS

KITSCHCANMAKEYOURICH

Made from eco-friendly bamboo, these bottle openers are charmingly modeled on real bottles. Our Capsule Collection »Open Up!« was designed in collaboration with the German artists ArtCan-BreakYourHeart and KitschCanMakeYouRich - ready to open caps with ease.

Both bottles are based on real beer bottles - a stout and a lager bottle.

The minimalist design language and high-quality workmanship make these bottle openers real eye-catchers.

SMILEY

For more than 12 years, our main goal has been to put a smile on your faces with our products.

So it seems logical to collaborate with the SMILEY® brand and develop products together. Products that bring a smile into your life and your home. Together with the SMILEY® team we have developed a collection to celebrate the 50th anniversary of SMILEY®.

Smiley is more than just an icon, SMILEY® is a lifestyle brand. It is a spirit and a philosophy, a reminder of how powerful a smile can be. SMILEY's simple message »Take the time to smile« was born in 1972 and is still relevant 50 years later.

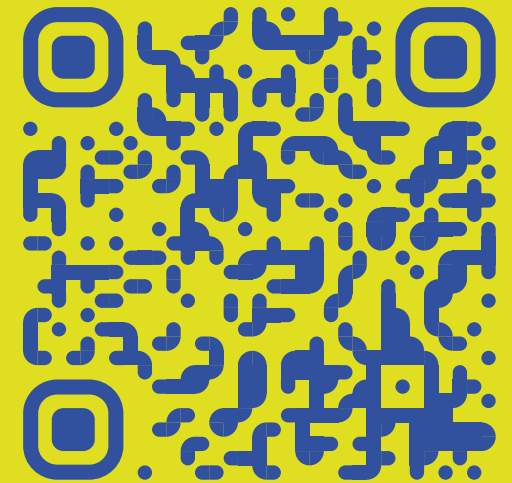

HERR & FRAU RIO

Donkey and the Munich-based risography studio Herr & Frau Rio have teamed up to pool their creative power and release unique art prints together. Sascha Wellm and Laura Sirch, the design duo behind Herr & Frau Rio, have created a total of five thematically unique collections: Space, Food, Animals, Happiness and Maneki Neko. From original illustrations to abstract designs, each motif is a true work of art.

In a team of four, they print, design and tinker to get the best out of every order. Herr & Frau Rio are passionate artists for all projects related to printing, design and production. They work in a very similar way to Donkey - from the initial idea to the finished product. A perfect match!

GOOD GOODS

➤ DONKEY PODCASTS

GOOD GOODS

We did it! The first podcast from the DONKEY universe is here! Say hello to »GOOD GOODS – The podcast for good ideas!«

What is GOOD GOODS about?

It's about iconic products, but above all about the people behind them. We all know the Bobby Car, the Billy bookcase, the Stanley Cup and so on... The list of products we all know is long, but who invented them? Why do they look the way they do and, above all, why are they so successful?

Where did the idea come from? What happened on the way to the finished, successful product? How did that affect the people and the brand? Our host and DONKEY founder Flobo wants to find out all this and much more from his guests. To do this, we dedicate each episode to a specific product and invite its creators to join us.

We are already in season 2 and in the first season we welcomed guests such as Henning Besser from the band DEICHKIND, Julia Hummel from KangaROOS and Patric Faßbender from toniebox.

A new episode is released every two weeks – however, every episode so far has been in German.

Follow us, listen to us and talk to us! We'll take you on a journey through iconic designs and exciting guests. Can you think of a product that you've always wanted to know how it was created? Write to us and we'll get the story!

You can listen to GOOD GOODS on the following platforms:

 Spotify  YouTube

 amazon music  Apple Podcasts

DONKEY TALKS

DONKEY Talks is the event format from DONKEY. The event series, which takes place regularly at the Easterfield Campus, brings together a large network of entrepreneurs, creative minds and new faces. Exciting speakers provide inspiration for good ideas and new collaborations.

We are constantly working on this format and a lot has happened in 2025 alone. Every evening's theme now falls under the slogan: The future of creativity. The secret to its success is the apartment-style atmosphere.

↗ **DONKEY TALKS**

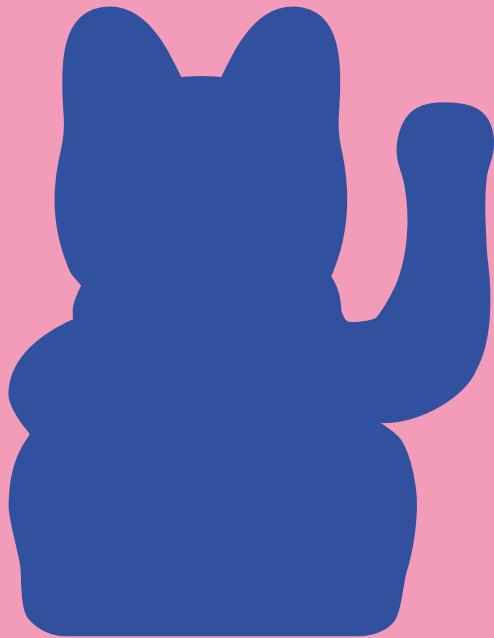

Exciting talks on our small stage with speakers such as Bela B. from Die Ärzte, Lars Hinrichs from the Digital Art Museum Hamburg and Gabriele Fischer from brandeins are combined with conversations in the kitchen over snacks and drinks. Seats at each event are now so sought-after that we have a full house every time. In 2025 alone, we welcomed over 400 guests. The entire Donkey Talks network now has 1,500 members – people who want to stay up to date and are simply keen to make new contacts.

We are proud of this community, which consists of fans, customers and new contacts. After 22 Donkey Talks, we will continue in 2026 with big topics and fantastic people.

MYNEKO®
BY
DONKEY

Our Lucky Cats have gained fans all over the world. When we launched the first four colours in 2018, it was only because of a photo shoot for other products, during which the photographer asked us if we had a single-colour Lucky Cat as decoration. That was the origin of the idea.

When we launched the colours green, yellow, pink and light blue just one year later and showcased them at Maison et Objet in Paris, the Lucky Cats were an instant hit. We celebrated several successes, designed shop windows and created amazing installations, such as at the Reeperbahn Festival and the Australian Open in Melbourne.

So we quickly realized the power of our Lucky Cats and how much joy they spread around the world. Until now, there was only one »problem«: Maneki Neko by Donkey started as a collection and that no longer does justice to its success.

That's why we worked hard in 2025 to turn our Lucky Cat collection into a real brand. The result: MYNEKO.

The MYNEKO brand stands for everything positive and beautiful in life. The Lucky Cat is a symbol of joy, sympathy and happiness. MYNEKO by Donkey carries these values from Japanese tradition into the modern age and makes the Lucky Cat an icon.

Mini

Classic

Solar

Its monochrome design reduces it to its iconic form, turning it into a design object. Its emotionality comes from the many different colours and the individual meanings behind each colour. While the colour makes the Lucky Cat a design object and the individual meaning gives it a story, each of them will now be given its own name. Thus, the Lucky Cat from DONKEY transforms from a design object with storytelling into a real character with which people can identify.

In the future, each colour will be given a name that suits its colour and its meaning. We are starting with our new Special Edition Lucky Cats in Shiny Silver, Pink, Black and Gold. But all the other Lucky Cats will also gradually be given names, which you will then be able to see on each package and learn about their history.

This way, everyone can find their own personal companion who waves at them and always makes them smile.

I am Avara. I make things feel light.

With the new MYNEKO brand we redesigned our famous packaging for our Lucky Cats, too. You can see the new Logo at the top. Because every Lucky Cat gets its own name, you can see this name and the story behind on the side of the packaging. The frontside is designed very clean and pure to present the most important facts of the Lucky Cat: colour, meaning, Logo and for sure the Lucky Cat itself. Our Special Edition Cats will come in the new black box with shiny embossed details.

MANEKI NEKO
GAMING
LTD. EDITION

The first limited edition of the DONKEY Lucky Cat!

What do Lucky Cats have to do with gaming? Well, so far not much except that they are as iconic as some characters from the most popular games. So it's only logical that these two worlds should finally meet. The symbiosis of digital and analog is not only appealing to us at DONKEY, it's simply a good idea and we love good ideas.

We have also found a congenial partner in SyndiCats, from which our four Limited Edition Lucky Cats Gaming have now emerged, combining the best of analog and digital. Inspired by the gaming community that plays together in streams, the Lucky Cats Gaming with their shiny colour gradient, special packaging and accompanying mini-game are a must-have for every gaming desk.
