

# DONKEY

WE CREATE  
HAPPINESS

# HELLO THERE, WE ARE DONKEY

---

a Hamburg-based design brand that develops and curates one-of-a-kind lifestyle and interior objects.

Since 2008, we have been driven by the love for creativity, storytelling, and out-of-the-box thinking, all with one goal: to turn good ideas into unique objects that are refreshingly different and simply great.

This passion has put smiles on faces around the globe, and we're just getting started. As a natural evolution of our journey, we established the Donkey Creative Lab — a space where our team, alongside external designers, artists, and innovative minds, can push the boundaries of design and bring even more creative ideas to life.

**Donkey.**  
**We create happiness.**

We love DONKEY! We live DONKEY!  
Every day!

But what actually drives us?

The answer can be summarized in a single word: **CREATIVITY**.

We are a colorful bunch of extraordinary and strong personalities who come together every day in an old condensed milk factory in Hamburg-Eppendorf. There we think about how we can bring new, wonderful products onto the market. Of course, it would be much easier for us to buy ready-made products from Asia. But instead, we always decide to go our own creative way. Just like a donkey.

For us, the work starts when we have a good idea. Then it continues: product design, factory search, material and color selection, prototypes, name development, packaging design, certification, quality assurance and shipping - all this happens before we can even take the first photo or start designing the catalog. At the same time, we plan trade fair appearances and think about how best to present our products at the POS or in the online store.

Yes, we could make it easier for ourselves. But we love this process - and we love our products. Every single one of them, because each one has been developed by us with passion. That's why we get up every morning and come to the office: to put our heart and soul into creating something special. We hope you enjoy our new catalog for 2025. Our creativity drives us forward - especially in times like these, when people are looking for something special.

That's what we stand for:  
We create Happiness.

Best regards from Hamburg,  
Flobo Berger, CEO of DONKEY Products

LIFESTYLE

Did you know that about 80% of human communication is through body language? The Arts of Parts collection is dedicated to the importance of our gestures to build connections.

The colorful vases and jewelry holders are complemented by the brain-shaped candle. In case you're wondering which body part the orange vase should be: The sulcus vase is exactly the brain cell responsible for good ideas. The foot and torso vases can also be used as bookends.

# ICONS OF SPORT

Imagine this: A basketball becomes a bowl, a boxing glove transforms into a vase, bowling pins are no longer on the alley but on your dining table. All these everyday sports objects lose their original place and take on a new, surprising role.

Each piece in this collection sparkles with unconventionality and brings the lightness of play and fun into your home. It's not about celebrating teams or expressing fan loyalty - it's about making everyday things take on new meaning. They not only set accents, but tell stories - of joy, strength and a courageous view of the world.

# HUNGRY HIPPOS

Have you ever thought that your home is still missing a hippo? Haven't you? And that's exactly why our Hungry Hippos have arrived at just the right time. Enjoy the unexpected fitting into any interior style.

This purely ceramic collection brings a certain opulence back into our homes. Rendering the unusual to the ordinary life is both an inspiration and a challenge for us. The Hungry Hippos with the two vases, the bowl, the candle holders, the bottle sealer and the salt and pepper shakers take this alienation to the extreme.

One thing's for sure: every hippo in your home is a real statement and with such big mouths it's easy to smile broader.

# BANANA ROMANCE

Why bananas? Because the banana has always been more than just an ordinary fruit for us humans. Artists have always been interested in them - whether Andy Warhol for Velvet Underground or Maurizio Cattelan, who simply stuck the yellow fruit on the wall.

Designers sing the banana's praises, as it is simply perfect from both an artistic and practical perspective. No other fruit combines design with practical use so well. Packaging that everyone knows how to open, a color that stands for itself and ingredients that are not only healthy, but have even been proven to make you happy.

# THE ASTRONAUTS

Space - infinite, mysterious and fascinating. Even as children, we dreamed of becoming astronauts and conquering the stars. Though only a few are able to realize this dream, the fascination for space remains with us for a lifetime.

The Astronauts bring this dream to your home in style and let you feel the vastness of the universe right in your living room.

The helmet of each figurine is a small snow globe filled with water and glitter that gently trickles through the glass when shaken, bringing the idea of weightless space adventures to life. This playful yet elegant attention to detail makes the figurines a special highlight in any room.

A close-up photograph of a man and a woman in a white blanket. The man is on the left, smiling, and the woman is on the right, holding a white mug. The man is also holding a white mug. The mugs have the words 'BIG HUG MUG' written on them in black marker. The background is dark, and the lighting is warm and intimate.

Together with Frankfurt artist Johanna Schwarzer, the DONKEY Creative Lab makes the comfort zone what it should be for everyone: the place where you feel most comfortable - the place where you can recharge your batteries and recharge your social battery.

Because we feel for you when you're secretly happy that a date has been canceled or when you don't want to move from your couch from Friday to Sunday.

That's why we've developed four essentials that will make your time of relaxation something very special. Enjoy romantic evenings with our exclusive anti-scented candle. Sip your coffee or tea from your new favorite XL mug, the "Big Hug Mug". Spray karma with the new glass spray bottle. Your plants will thank you. Cuddle up in your comfort zone in the truest sense of the word with our large 100% cotton blanket.

BOTTOM VIEW

A close-up photograph of a branch from a red Christmas tree. The branch is densely packed with bright red, needle-like leaves. Four pickle-shaped ornaments are attached to the branch. From top-left to bottom-right, the pickles are blue, yellow, green, and purple. Each pickle has a small gold-colored cap at the top with a white string attached. The background is a plain, light-colored surface.

Legend has it that it was an old German tradition to hide an ornamental pickle on the christmas tree as one of the christmas decorations.

On christmas morning, the first child to find the pickle on the tree would get an extra christmas present from Santa and would be said to have a year of good fortune.

The bottle openers „Open Up!“ are designed in collaboration with German artists ArtCan-BreakYourHeart and Kitsch-CanMakeYouRich, ready to pop caps with ease. Giving an unexpected benefit to a familiar object creates refreshing moments of surprise and blends art and functionality in a unique way. „Stout“ and „Lager“ blend in perfectly with regular bottles which makes them the ideal gift – alone or in a mixed crate of lemonade and craft beer.

DONKEY  
CRATIVE  
LAB

# DESIGN BY DONKEY CREATIVE LAB

The DONKEY Creative Lab is the heart and brain of DONKEY and gives us as a brand the opportunity to be more than just a retail company. In the Creative Lab, great ideas are turned into great companies, workshops, collaborations and, of course, products, collections and events.

It is the basis of everything we do at DONKEY and allows us to think outside the box time and time again. In the DONKEY Creative Lab, we regularly collaborate with external artists, designers and innovative minds - such as SMILEY, KITCHCAN-MAKEYOURICH and Johanna Schwarzer.

The collaborations are important to regularly expand our own horizons and to never stand still. Every product from DONKEY Products is being handled by the Creative Lab to ensure that it is a genuine DONKEY product. But because it is open to all, we have the chance to constantly reinvent ourselves and redefine what a DONKEY product is or can be.

## CREATIVE LAB

### JOHANNA SCHWARZER

Johanna Schwarzer is an illustrator and artist from Frankfurt. She is known for her unique typeface and lines. Together with her, we have developed a collection that is made for cold days. With the large mug, an anti-scent candle, the glass spray bottle and the cozy woolen blanket, the cold, grey days become relaxed Cozy Home Days. All products feature a statement in the typical Johanna Schwarzer font.

The woollen blanket thus becomes the "Comfort Zone" and the candle bears the inscription "smells like nothing". The "Big Hug Mug" is so big that you can "hug" it with two hands and with the "Karma Spray" you are doing something good for your plants and ultimately also for yourself.

## DONKEY X JOHANNA SCHWARZER

### KITCHCANMAKEYOURICH

Made from eco-friendly bamboo, these bottle openers are charmingly modeled on real bottles. Our Capsule Collection "Open Up!" was designed in collaboration with the German artists ArtCanBreak-YourHeart and KitchCanMakeYouRich - ready to open caps with ease.

Both bottles are based on real beer bottles - a stout and a lager bottle.

The minimalist design language and high-quality workmanship make these bottle openers real eye-catchers.

## COLLABORATIONS

#### **BONA\_BERLIN & URBANSHIT GALLERY**

DONKEY teamed up with artist Bona\_Berlin to realize a very special art project with "OUTER SPACE". Over 30 hand-painted astronaut figures show that art does not have to be painted on canvas and that designer productions with minor flaws can become unique and collector's items. The urban art collectables were on display and for sale in the URBANSHIT GALLERY, in the pop-up exhibition "OUTER SPACE".

#### **SMILEY**

For more than 12 years, our main goal has been to put a smile on your faces with our products.

So it seems logical to collaborate with the SMILEY® brand and develop products together. Products that bring a smile into your life and your home. Together with the SMILEY® team we have developed a collection to celebrate the 50th anniversary of SMILEY®.

Smiley is more than just an icon, SMILEY® is a lifestyle brand. It is "a spirit and a philosophy, a reminder of how powerful a smile can be." SMILEY's simple message "Take the time to smile" was born in 1972 and is still relevant 50 years later.

#### **HERR & FRAU RIO**

Donkey and the Munich-based risography studio Herr & Frau Rio have teamed up to pool their creative power and release unique art prints together. Sascha Wellm and Laura Sirch, the design duo behind Herr & Frau Rio, have created a total of five thematically unique collections: Space, Food, Animals, Happiness and Maneki Neko. From original illustrations to abstract designs, each motif is a true work of art.

In a team of four, they print, design and tinker to get the best out of every order. Herr & Frau Rio are passionate artists for all projects related to printing, design and production. They work in a very similar way to Donkey - from the initial idea to the finished product. A perfect match!

# MANEKI NEKO

**Lucky charms are older than any religious doctrine. People have always hoped for a little support from a higher power every now and then. One of the most well-known symbols of luck is Maneki Neko, the beckoning Japanese cat.**

Our new Lucky Cats Solar bring a breath of fresh air to the world of Lucky Cats! Minimalist, iconic and cute - these Lucky Cats now only wave with the power of the sun. Instead of batteries, a cleverly integrated solar panel ensures that luck is waved in.

Available in four elegant colors, the Lucky Cats Solar are more compact than our previous

models and come in stackable boxes. So you can create your very own cat wall at home and they become a real collector's item.

Whether as an eye-catcher on the desk, a lucky charm on the shelf or a collector's highlight in the display case - our cute Lucky Cats Solar fit into any home.

# MANEKI NEKO GAMING LTD. EDITION

The first limited edition of the DONKEY Lucky Cat!

What do Lucky Cats have to do with gaming? Well, so far not much except that they are as iconic as some characters from the most popular games.

So it's only logical that these two worlds should finally meet.

The symbiosis of digital and analog is not only appealing to us at DONKEY, it's simply a good idea and we love good ideas.

We have also found a congenial partner in SyndiCats, from which our four Limited Edition Lucky Cats Gaming have now emerged, combining the best of analog and digital. Inspired by the gaming community that plays

together in streams, the Lucky Cats Gaming with their shiny color gradient, special packaging and accompanying mini-game are a must-have for every gaming desk.

# LUCKY CAT

Inspired by the planets that surround us, the Cosmic Cats bring the captivating theme of space into your home in a playful yet elegant way. Each of these shiny Lucky Cats represents a different planet – a symbol of the connection between the unimaginable vastness of the universe and the things we seek most in our daily lives: joy, energy, and inspiration.

With their high-quality, shiny finish and powerful design, the Cosmic Cats capture the magic of the cosmos. They're not just a stylish decoration; they serve as a reminder that sometimes the smallest things bring the greatest joy.

The Cosmic Cats are the fourth special edition in our series – a tradition we're proud to continue. They're more than just design objects; they're an invitation to expand your perspective and be inspired by the endless variety of the universe. Each cat encourages you to see the world from a new angle and bring a little piece of the cosmos into your home.
